

Information Technology (IT) Manager

Apply Now

Company: Linked4HR Human Resources Consultancies LLC

Location: Dammam

Category: other-general

One of our esteemed clients in **Shipbuilding industry**s currently seeking an **Information Technology Manager** with 8+ years of experience to be based **Dammam, Kingdom of Saudi Arabia.**

Job Overview

Supervise IT governance & planning, infrastructure, and operations in the company in alignment with best practices to ensure effective and efficient IT operations.

Managerial Responsibilities

Contribute and monitor work done by the team members and ensuring it is completed on time without delay.

Track and report critical organizational unit performance results and escalate business related issues to senior management.

Functional Responsibilities

Develop IT strategy and ensure its alignment with strategic and business objectives.

Supervise IT governance and risk management frameworks to ensure safety, security, and business continuity in the company.

Recommend optimal IT solutions and execute projects to meet the organization's IT needs, including managing and controlling solutions and overseeing IT vendor relations.

Oversee the design, implementation, and maintenance of IT infrastructure, including

networks, servers, and systems.

Ensure data security, disaster recovery, and business continuity plans are in place and regularly tested.

Optimize infrastructure to support **shipbuilding operations** efficiently and cost-effectively.

Assure that all relevant to technology and IT requests and queries from the company stakeholders are catered for effectively.

Develop and manage the IT budget, ensuring cost-effective technology investments.

Qualifications

Bachelor's Degree in Computer science, IT, Digitalization or any other similar field.

Above 8 years of experience in related field including 3 years in a managerial role.

Master's Degree in Computer science, IT, Digitalization or any other similar field is preferred.
