Company: Antal International

Location: Saudi Arabia

Category: healthcare-practitioners-and-technical

### Job Description

Are you a passionate and dedicated fertility specialist seeking to help families blossom in a dynamic healthcare environment?

We are representing a leading hospital in Saudi Arabia, who are committed to empowering individuals and couples on their journey to parenthood. We invite exceptional IVF Consultants with a CCT/CCST qualification or its equivalent from Europe, the USA, or Canada to apply join the team and make a life-changing difference.

**Embrace the Gift of Life:**

Nurture hope and possibility: Guide patients through personalised IVF treatments, utilising advanced technology and a compassionate approach.

**Be at the forefront of innovation:** Implement cutting-edge techniques and contribute to ongoing research, shaping the future of fertility care in Saudi Arabia.

**Build lasting relationships:** Offer support and guidance throughout the entire IVF journey, fostering trust and creating lifelong bonds with patients.

**Thrive in a collaborative environment:** Work alongside a dedicated team of specialists, nurses, and embryologists, ensuring seamless care for every patient.

**Discover a rewarding career:** Enjoy a competitive tax-free salary and benefits package, including relocation assistance, furnished family accommodation, health insurance, and generous annual leave.

Experience a vibrant culture: Immerse yourself in the rich tapestry of Saudi life, explore hidden gems, and build a fulfilling life in a welcoming community.

#### Clinical Duties:

**Patient evaluation and diagnosis:** Assess fertility potential, diagnose infertility causes, and develop personalised treatment plans.

**Ovulation induction and monitoring:** Administer medications to stimulate ovulation and monitor follicular development.

**Sperm analysis and preparation:** Analyse sperm quality and prepare sperm for assisted reproductive techniques (ART) procedures.

**In Vitro Fertilization (IVF) procedures:** Perform egg retrieval, sperm retrieval, fertilization techniques (ICSI, PICSI), embryo culture, and embryo transfer.

**Other ART procedures:** Offer additional services like assisted hatching, blastocyst transfer, preimplantation genetic diagnosis (PGD), and cryopreservation of embryos or oocytes, depending on expertise and hospital capabilities.

**Management of high-risk cases:** Manage complex cases involving advanced maternal age, recurrent implantation failure, or other contributing factors.

**Pre-implantation genetic screening/diagnosis (PGS/PGD):** If available, highlight expertise in selecting healthy embryos for implantation based on genetic analysis.

**Counselling and patient support:** Provide comprehensive counselling and support to patients throughout the IVF journey, addressing emotional and psychological needs.

**Collaboration with other specialists:** Work closely with embryologists, urologists, geneticists, and other specialists to ensure optimal patient care.

#### Additional Duties:

**Research and innovation:** Engage in research activities to improve treatment outcomes and contribute to the advancement of reproductive medicine in Saudi Arabia.

**Teaching and training:** Train and mentor residents, fellows, and embryologists in the field of IVF.

Participation in multidisciplinary teams: Participate in departmental committees and contribute to clinical governance activities.

Quality assurance and improvement: Participate in quality assurance programs and strive to continuously improve IVF services.

Outreach and public education: Provide public education about infertility and IVF treatment options.

We envision a candidate who:

Possesses a CCT/CCST qualification or its equivalent in Reproductive Medicine and Embryology from Europe, the USA, or Canada.

Holds a minimum of 3-5 years' post-qualification experience in a Consultant role within an IVF setting.

Demonstrates exceptional clinical skills, a patient-centred approach, and a commitment to evidence-based practice.

Has strong communication and collaboration skills, fostering trust and building rapport with patients and colleagues.

Embraces cultural sensitivity and adaptability, eager to learn and contribute to a diverse healthcare system.

Ready to cultivate the dreams of families yearning for parenthood?

Send your CV to be reviewed.

Join the team and be a part of the miracle of life in Saudi Arabia!
