### Job Requirements

Bachelor's degree in Nursing (online degrees/diplomas are not accepted), and

Current Nursing (RN) license in the North America, Western Europe, or Australia/New Zealand, and

Minimum two years of current experience as a Registered Nurse in the specialty area, working in a mid- to large-sized acute-care hospital in North America, Western Europe, or Australia/New Zealand.

### Department Information

The **Ambulatory Care Nursing** (ACN) Program is made up of fourteen clinical areas that represent the management of over ninety subspecialty clinics including Hemodialysis,

Endoscopy and Oncology Treatment areas.

Â

This Ambulatory care facility is one of the largest in the world with over 500,000 patient encounters per year. A team of over 280 staff nurses manage clinics, coordinate complicated testing schedules, assess patient compliance and teach patients about their medical conditions in this area.Â Leadership is provided by Head Nurses in each of the clinic areas who together with clinical coordinators and support staff (including interpreters) make up another 100 staff members in this area.

The **Hemodialysis (HD) units** are hospital-based units providing acute hemodialysis, continuous renal replacement therapy (CRRT), chronic hemodialysis and hemodiafiltration to adult and acute pediatric patients. The patients are categorized as having acute renal failure or endstage renal disease and many have multiple medical diagnoses.Â The majority of the patients are in the 12 to 75 year range.Â Their treatment regimen require close observation and prompt nursing intervention while receiving hemodialysis and CRRT treatments.

#### **Frequent Procedures/Services/Functions**

Patient care providers include nephrologists, registered nurses, head nurse, nurse clinician, translator, social worker, and dietitians.Â The dialysis nursing staffs have specific training in hemodialysis, continuous renal replacement therapy and hemodiafiltration that encompasses anatomy, physiology, pathophysiology, hemodialysis theory, patient care and dialysis machine technology.

#### **Nurse To Patient Ratio:**

1:1 Acute Patients (AHDU)

1:1 Pediatric Patients

1:3 Chronic Patients (CHDU)
