Trainee Engineer - KSA (Riyadh)

[Apply Now](#)

Company: INTECH

Location: Saudi Arabia

Category: architecture-and-engineering

About The Position

The Trainee Program will provide you opportunities to gain valuable hands-on exposure to a globally renowned System Integrator and Industrial Automation Company.

You'll expand your knowledge based on personal experiences, coaching, and resources within our best-in-class learning platforms. You'll also work alongside great managers who will invest in your development and give you feedback to help you grow and improve. It is tailored for experiential learning and will bring you the advantage of first-hand experience through a combination of dedicated mentoring and practical training.

Working closely with staff to foster professional values and build good relationships.

Participate in training sessions and workshops to acquire knowledge of engineering principles and practices.

Collaborate with senior engineers to assist in the design, development, and testing of engineering projects.

Perform research and analysis to support engineering activities and identify potential areas for improvement.

Assist in the preparation of technical documentation, including reports, manuals, and specifications.

Conduct experiments, collect data, and assist in troubleshooting and resolving technical issues.

Stay updated with the latest advancements and trends in engineering technologies and methodologies.

Collaborate with cross-functional teams to contribute to the successful execution of projects.

Maintain accurate records and documentation of project activities and progress.

Follow established procedures and safety guidelines to ensure compliance with industry standards.

Understands the frameworks and recommends applicable controls specific to the environment and systems

Perform cybersecurity criticality assessment of the OT systems

Perform vulnerability assessments of the OT systems

Categorize the risks

Perform the hardening of the OT systems and network

Requirements

Bachelor's in computer engineering

A great team player with excellent interpersonal and communication skills

Has strong drive and desire to set an excellent foundation for future career success

Base Location: Riyadh, KSA

Location: RIYADH - KSA
